

Saturn Model H (HOUSTON)

The Model H features an above counter top monitor and keyboard mount . The mount adds the flexibility of being able to enter data from the front or the side of the unit. This feature allows an examiner and data entering person to work at the same unit at the same time. The work surface is only 28" from the floor.

Saturn Model H (Houston)

Offers a large work surface, rear storage, self contained water system, quad electric outlet plus all the features of the Saturn unit.

EXTRA LARGE CHAIRSIDE WORK AREA

The top offers 500 square inches of chairside work area that measures 22" x 24"

INTERNAL EQUIPMENT STORAGE

The large rear equipment compartment houses the clean water system. Computer space 8.5 inches X 10" X 12" tall.

EXTRA WORK AREA

The pull-out work tablet, on full extension glides for strength and durability, offers an additional 133 square inches of chairside work area. The back edge is raised so nothing can roll off and the front edge is flat, so it's easy to slide wires off with gloves.

CHAIRSIDE STORAGE

Durable drawers constructed of Baltic Birch, UV sealed and installed using 100 lbs. full extension ball-bearing glides for smooth operation and full access. Over 840 cubic inches of drawer storage space.

POSITIONING

The innovative Ross Glide Bracket enables the Saturn Unit to travel 15" parallel to the chair for correct positioning in relationship to the patient, doctor and chair.

QUICK CHANGE

The modular top is removable for easy replacement due to damage or decor change.

DURABILITY

The unit is constructed of 3/4" cabinet grade plywood for durability and retention of integrity for the life of the practice.

SOLID WOOD DRAWERS

For durability, the drawers are constructed of BALTIC BIRCH, sealed with a clear finish to guard against cracking and warping.

SMOOTH OPENING DRAWERS

The wood drawers are mounted on ball bearing full extension drawer glides. Full drawer access.

INSTRUMENTATION

Two hand piece control, one high speed wet with coolant one dry for a low speed handpiece, one Hi volume assembly, one Hi volume assembly, one saliva ejector assembly, solids collector, three way air/water syringe, master on/off and a clean water system.

Unit: 23" W X 25" D X 16" H Chair & Unit: 48" W Drawers: 8 1/2" W X 12" D X 2 3/4" H

The Ross Difference

At Ross, we believe that the patient treatment equipment should be functional, attractive and offer a long, dependable life. Ross builds in quality where you can't see it, using industrial-grade heavy duty mechanical components that are built to last.

***The bottom line on the Ross difference is simple - value and service.
"...The concept has been time tested, the design fine-tuned
and backed by over 40 years of experience..."***

The logo for Ross Orthodontic, featuring the word "ROSS" in a bold, stylized font with a horizontal line through the middle of the letters.
